

Before You Begin

The key to creating Disney magic is preparation, so here is some important information to read before you start. You'll also find useful crafting tips and tricks to help everything run smoothly and ensure you get the best results.

Important note to parents and carers

The projects in this book may require adult help and supervision, depending on your child's age and ability. Always ensure that your child uses tools that are appropriate to their age, and offer help and supervision as necessary to keep them safe.

Safety first

All of the projects in this book should be approached with care, so make sure you read these safety tips first!

- Keep young children (under six years of age) and pets away from the crafting area.
- Don't allow any ingredients to come into contact with your eyes or mouth.
- Don't eat or drink whilst creating a project.
- Paint and food colouring can stain surfaces and clothing. If you want to protect your hands, you could wear gloves.
- Wash your hands and clean all equipment when you have finished a project.
- If you have any allergies (such as to eggs, acrylic paint or essential oils), avoid projects that utilize these ingredients, substitute if possible or protect yourself appropriately.

- Sharp objects, such as scissors, craft knives, needles or pins should be handled with care. Ask an adult if you need help when cutting, pinning or stitching.

Warning labels

Extra care or supervision is needed when you see these symbols:

Hot ovens, cooking equipment or irons are needed for this step. Ask an adult for help or supervision and take care when handling anything hot.

Ask an adult for help or supervision with this step.

Baking sheet

Acrylic paint

Egg

Carrier oil

Food colouring

Essential oil

How to use templates

This book includes templates on pages 60–63 to help you achieve the perfect shapes for the best end results in some of the more complicated projects. Follow the instructions at the back of the book.
