

# Barrette Organizer

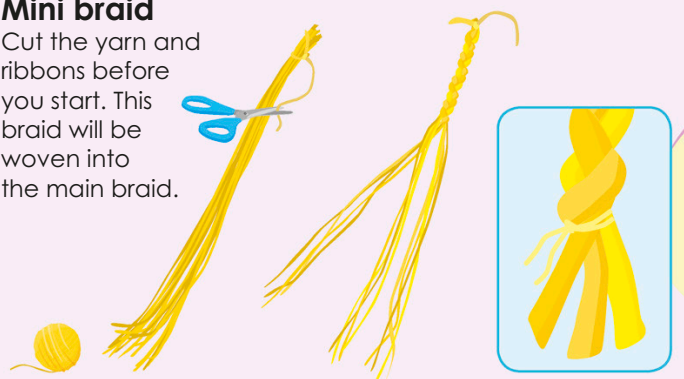

Use the power of Rapunzel's hair to organize your hair accessories. This beautiful braid will stop your barrettes from getting tangled or lost – and it displays them beautifully, too.

## You will need:

- Measuring tape
- Scissors
- 12 strands of yellow yarn, 80 cm (32 in) long
- 80 strands of yellow yarn, 160 cm (63 in) long
- Extra yellow yarn
- 80 cm (32 in) of narrow, pink ribbon
- 80 cm (32 in) of narrow, purple ribbon
- Wide, purple ribbon (enough for two bows)

## Mini braid

Cut the yarn and ribbons before you start. This braid will be woven into the main braid.

- 1 Tie a piece of yarn around the top of the 12 strands of yarn and cut off the excess.
- 2 Divide the strands into three sections. Braid together.
- 3 Secure the bottom of the braid with extra yarn and cut off the excess.

## Braid it all together

All the strands of yarn are folded in half. This makes the braid chunkier and also gives a neat finish to its top.

- 1 Gather together the long pieces of yarn and fold them in half.

- 2 Place the mini braid and the two thin pieces of ribbon on top of the yarn.

- 3 Tie a short piece of yarn around the whole bunch, just below the fold.

- 4 Divide the yarn into three equal sections: one with the thin braid, another with the pink ribbon and the other with the purple ribbon.

**TOP TIP**  
To create a neat, tight braid, ask someone to hold the end of the braid or fasten it to something that won't move.

Ribbon bows hide the yarn that secures the braid.

Barrettes easily clip on and off the yarn hair.
