

Crafting essentials

Most of the supplies, ingredients and equipment used in this book are easy-to-find household products – you may have them in your desk drawer already! Everything else can be purchased online or at your local hardware, department, craft, stationery or grocery store. Where we have specified a particular type of glue or paint, we have found that these materials give the best results. But this doesn't mean you have to use them if you have an alternate lying around or want to try something different.

Some key essentials are shown here:

Paintbrushes

Pencil

Coloured pencils

Use this for anything that touches your skin.

Nontoxic paint

Scissors

Ruler

This needs to be oven baked.

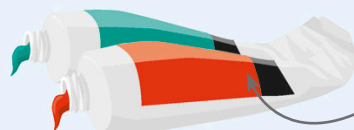

Polymer clay

This clay sets without heat.

Air-dry clay

Acrylic paint

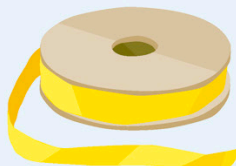

Acrylic covers cardboard well.

Needle and thread

Yarn

Ribbon

Perfect for papier mâché

Strong glue

White glue

Does not make paper buckle

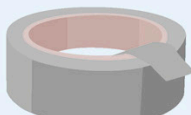

Glue stick

Felt-tip pens

Paper and cardstock

Double-sided tape

Strong tape

Clear tape

Egg cartons

Cardboard tube

Plastic bottle

GO GREEN!

We have tried to ensure our materials are recyclable – and you should, too! Use paper straws or raid your recycling for cardboard, bottles and other materials to keep your crafts eco-friendly.

Paper straw

TOP TIP

To punch a hole safely without a hole punch tool, press a pencil through paper or cardstock into poster tack.
