

Flower Crown

Stand out from the crowd like Moana from the island of Motunui with your own leafy blossom crown. You might find it's the perfect accessory for a great adventure!

You will need:

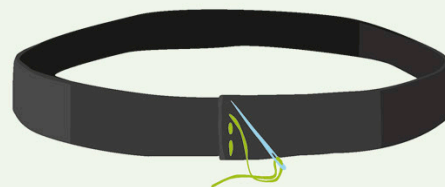

- Elastic (roughly 2½ cm (1 in) wide)
- Cotton thread
- Scissors
- Paper
- Needle
- Sewing pins
- Pencil
- Felt
- Small beads

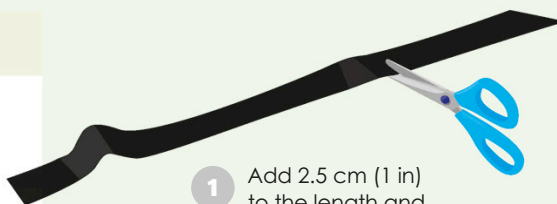

TOP TIP
To speed up cutting out the leaves and flowers, layer several together and cut them all at once.

Measure your head

The crown is sewn onto an elastic band that should be snug around your head and easy to take on and off. Wrap the elastic around your head first to measure the size. Pull it slightly so it stretches a comfortable amount.

2 Overlap the ends of the elastic by 2.5 cm (1 in), then sew them together using a simple running stitch to make a headband.

1 Add 2.5 cm (1 in) to the length and then cut the elastic.
