

High on the hill

Ski jumping venues are called **hills**.

Hills are made up of a **jumping ramp**, **takeoff table**, and **landing hill**.

Ski jumpers hold their skis in a V-shape when flying through the air to help them jump farther.

Austrian Stefan Kraft holds the world record for the longest ski jump at 832ft (253.5m)

Ski jumping has been an Olympic sport since 1924.

Landing hill
