

X-43A

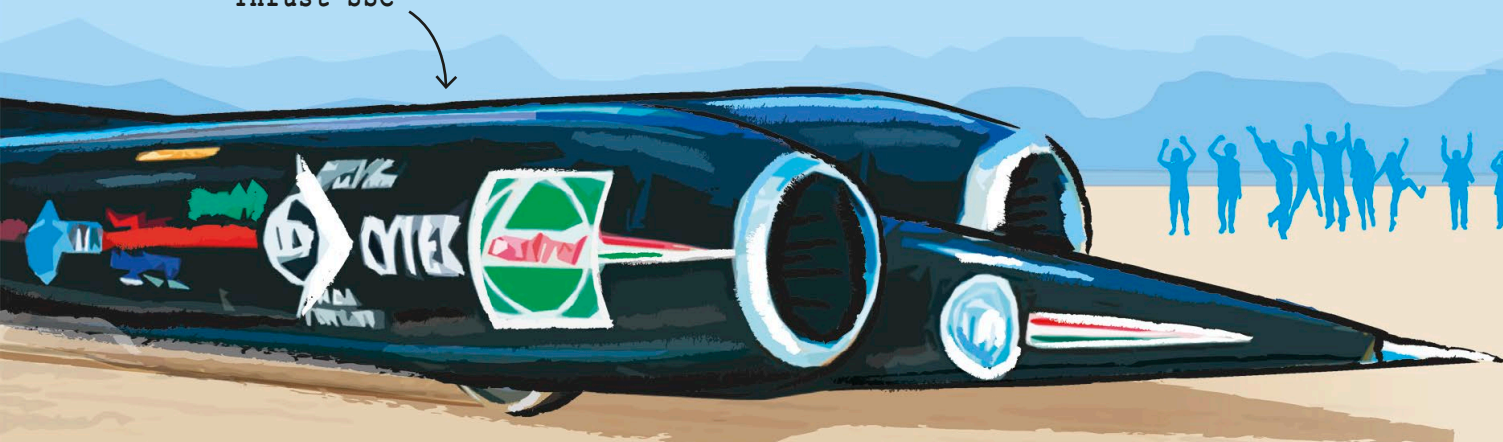

The air speed record is a massive 7,310mph (11,764.3kph) set by the X-43A jet—a plane without a pilot.

The water speed record is held by Australia's Ken Warby. He reached a speed of 317.58mph (511.09kph).

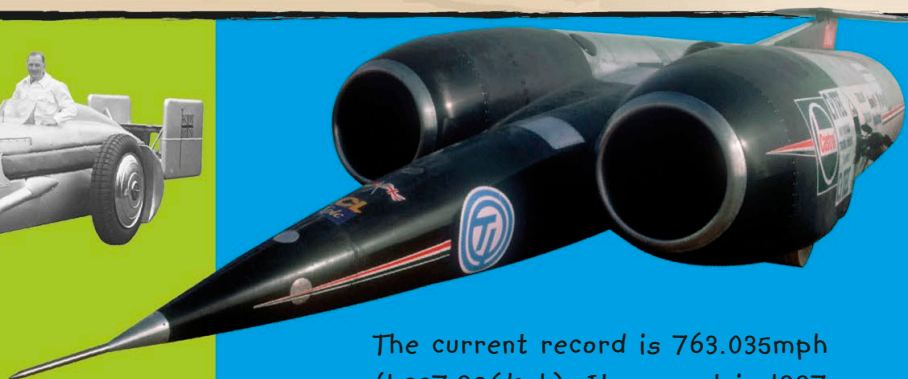

Thrust SSC

The fastest speed on two wheels is 376.363MPH (605.698KPH) by American ROCKY ROBINSON.

In 1927, Britain's Henry Segrave became the first to drive at more than 200mph.

The current record is 763.035mph (1,227.986kph). It was set in 1997 by Britain's Andy Green in a jet-powered car called Thrust SSC.
