

One of cricket's biggest rivalries is between England and Australia. They play for a tiny trophy called "The Ashes." It's the smallest trophy in sports!

Aim of the game

One team scores runs when one of its batsmen **strikes the ball** with the bat. It's the other team's job to **get the batsman out**. There are lots of ways to do this, including catching a hit ball before it touches the ground.

Bat

Wicket

Pads

Ball

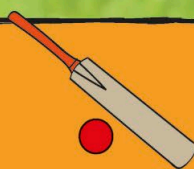

was at 100mph (160kph).

Cricket is extremely popular in India, Pakistan, and the West Indies.
