

Speedway

Between four to six riders race motorcycles around a short dirt track.

Monster truck

Monster trucks

These huge trucks race around tracks that have a number of jumps. Sometimes the trucks fly over cars or crush them!

Monster truck tires can be taller than people!

Rallying

As with touring car racing, rally cars are normal cars that have been modified. Instead of racing on tracks, they race on a road course.

NASCAR

NASCAR is one of the most popular motor sports in the US. Drivers race around tracks or street circuits in special cars called stock cars.
