

Badminton

Badminton is a racket sport where players hit a **shuttlecock** (also called a “bird” or “birdie”) over a **net**. Singles matches are played between two people, and doubles between four.

How to play

Players hit the shuttlecock over onto the other side of the net. Players then hit the shuttlecock back and forth until it **hits the ground**, the net, or goes out of the court.

Then and now

Although modern badminton came from Europe, it's most **popular in Asia**. It has been an Olympic sport since 1992, and Asian players have won by far the most medals.
