

Extreme sports

These sports are for people who **live life on the edge**! They involve risk, speed, height, a battle against Mother Nature, or all of the above!

BMX

Cyclists on BMX bikes race around a dirt track with bumps, ramps, and sharp turns. BMX stands for "bicycle motocross."

White-water rafting

White-water rafters go down a river's fast-moving rapids in an inflatable raft.

Parkour

Developed in France in the 1980s, parkour is also known as free-running. The aim is to move over and through obstacles by running, jumping, and climbing.

BASE jumping

BASE jumping is similar to skydiving, except people leap from high objects, such as buildings or cliffs, instead of out of a plane.
