

Area of a circle	142
Angles in a circle	144
Chords and cyclic quadrilaterals	146
Tangents	148
Arcs	150
Sectors	151
Solids	152
Volumes	154
Surface area of solids	156

3 TRIGONOMETRY

What is trigonometry?	160
Using formulas in trigonometry	161
Finding missing sides	162
Finding missing angles	164

4 ALGEBRA

What is algebra?	168
Sequences	170
Working with expressions	172
Expanding and factorizing expressions	174
Quadratic expressions	176
Formulas	177
Solving equations	180
Linear graphs	182
Simultaneous equations	186
Factorizing quadratic equations	190

The quadratic formula	192
Quadratic graphs	194
Inequalities	198

5 STATISTICS

What is statistics?	202
Collecting and organizing data	204
Bar graphs	206
Pie charts	210
Line graphs	212
Averages	214
Moving averages	218
Measuring spread	220
Histograms	224
Scatter diagrams	226

6 PROBABILITY

What is probability?	230
Expectation and reality	232
Combined probabilities	234
Dependent events	236
Tree diagrams	238
Reference section	240
Glossary	252
Index	258
Acknowledgments	264
