

MEET THE GREENS

HOWDY ALL! First up there's bold broccoli, then there's amazing avocado, followed by luscious lime, powerful peas, great green beans, and last but not least, strong spinach! Greens are good for your overall health and in particular your blood and heart.

We're the
GREEN TEAM

Broccoli contains almost as much Vitamin C as oranges.

I'm high in antioxidants, which help to slow down wear and tear on your body's cells.
