

AND YOUR PURPLES

PURPLE food such as blackberries, blueberries, red cabbage, raisins, aubergines, plums, and grapes can contain chemicals that help protect your body from DISEASE and keep your heart healthy.

AND YOUR YELLOWS

YELLOW food usually contains lots of Vitamin A and C. So by eating plenty of corn, lemons, bananas, peppers, melon, apricots, and pineapple, you will boost your body's IMMUNE SYSTEM, which is what makes sure you stay well.

AND YOUR ORANGES

ORANGE food such as carrots, sweet potatoes, squash, pumpkin, and – of course – oranges can contain something called CAROTENES. These are converted to Vitamin A, which help keeps your eyes, skin, hair, bones, and teeth in good shape.
