

I'll relax you

I have a low, spreading habit and my dainty fernlike leaves will add some soft, serene texture to your room to help you relax. My vibrant, deep-green leaves will also rejuvenate and revitalize you when you're feeling exhausted.

Be mindful of me

Although it's fun and inspiring to watch me shrink away when touched, it can actually weaken me, as it takes up my energy to open and close, so try not to do it too often and feed me so I can keep growing.

Look out for my flowers

In my native Brazil, I bloom tiny pink or pale-purple flowers like fluffy balls, though I may not produce any as a houseplant.

BE AWARE: I can be harmful if eaten, so keep me away from children and pets.
