

Help me feel at home

I'm from South America and love warmth and high humidity. If I don't like the dry air, my leaves may start to shrivel up. To avoid this, mist me regularly and/or place me on a tray of wet gravel.

I'm symbolic

I am known as the bringer of peace, because my white spathe represents a white flag, a common signal of truce. I'm also a great gift for someone going through difficult times, as I symbolize tranquility.

Be mindful of me

I will flower freely and am tolerant of heavy shade. However, I may not flower in low light, as I need moderate light to photosynthesize productively, which in turn gives me the energy to bloom. On the other hand, if my spathes turn yellow, it may mean the light is too strong for me.

BE AWARE: I can be harmful if eaten, so keep me away from children and pets.
