

I'm a flower factory

As well as flowering throughout the year, my flowers last a long time—several weeks, in fact. I am not just a red-flowering plant, either; you can also find me in pink, white, mauve, green, and bicolored varieties.

I am symbolic

According to feng shui, I bring good luck in your relationships. Others say my red heart-shaped spathes signify long-lasting love and friendship, making me one of the most popular houseplants to gift to loved ones and friends.

BE AWARE: I am harmful if eaten, so keep me away from children and pets. My sap can also cause skin irritation.
