

An illustration in the top left corner shows four people's heads and shoulders as they look over the edge of a light-colored roof. From left to right, there is an older man with a grey beard, a woman with dark hair, a woman with light hair, and another woman with dark hair.

The Hole in the Roof

When Jesus grew up he could do amazing things, such as heal the sick. So people followed him wherever he went.

One day, four men carried their friend on a stretcher to a house that Jesus was visiting. Their friend's legs were paralyzed. But the house was overcrowded with people. They could not even get in the door. So they climbed onto the top of the house, made a hole in the roof, and lowered their friend through it.
