

HADRONS

BARYONS

- PROTON
- NEUTRON
- LAMBDA PARTICLE
- OTHERS

MESONS

- POSITIVE PION
- NEGATIVE KAON
- OTHERS

These composite particles are made of quarks. Baryons are themselves fermionic in nature, while mesons behave as bosons (see p.68)

COMPOSITE PARTICLES

BOSONS

ELEMENTARY BOSONS

- PHOTON
- GLUON
- W- BOSON
- W+ BOSON
- Z BOSON
- HIGGS BOSON

Elementary bosons mostly act as “messengers,” transmitting forces between particles of matter. They behave very differently from fermions.

BOSONS
