

***Berberis gagnepainii* var. *lanceifolia***

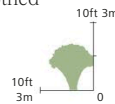

Evergreen, bushy, dense shrub. Massed, globose to cup-shaped, yellow flowers appear among long, narrow, pointed, dark green leaves in late spring. Forms blue-bloomed, black berries.

☀️ 💧 Z6-9 ⓘ

***Kerria japonica* 'Pleniflora'**

Vigorous, deciduous, graceful shrub. Double, golden-yellow flowers are borne along green shoots from mid- to late spring. Leaves are narrowly ovate, sharply toothed and bright green.

☀️ 💧 Z4-9

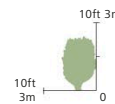

ORANGE

***Berberis trigona* 'Orange King'**

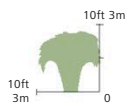

Evergreen, upright, stiff-branched shrub with narrow, rigid, dark green leaves. Bears large, globose to cup-shaped, deep orange flowers in late spring.

☀️ 💧 Z6-9 ⓘ

***Forsythia x intermedia* 'Spectabilis'**

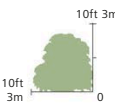

Vigorous, deciduous, spreading shrub with sturdy growth. A profusion of large, deep yellow flowers is borne from early to mid-spring before sharply toothed, dark green leaves appear.

☀️ 💧 Z6-9

***Berberis x stenophylla***

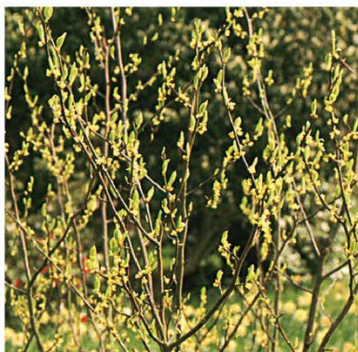

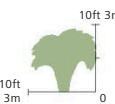

Evergreen, arching shrub with slender shoots and narrow, spine-tipped, deep green leaves, blue-gray beneath. Massed, golden-yellow flowers appear from mid- to late spring, followed by small, blue-black fruits.

☀️ 💧 Z6-9 ⓘ

***Berberis x lologensis* 'Stapehill'**

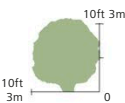

Vigorous, evergreen, arching shrub. Glossy, dark green foliage sets off profuse racemes of globose to cup-shaped, orange flowers from mid- to late spring.

☀️ 💧 Z6-9 ⓘ

***Lindera benzoin* (Spicebush)**

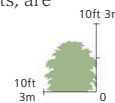

Deciduous, bushy shrub with aromatic, bright green leaves that turn yellow in fall. Tiny, greenish-yellow flowers in midspring are followed by red berries on female plants.

☀️ 💧 pH Z4-9

***Euphorbia mellifera* (Honey spurge)**

Evergreen, rounded shrub grown mainly for its long, narrowly oblong, rich green leaves with cream midribs. Small, honey-scented, brown flowers, surrounded by showy bracts, are produced in dome-shaped clusters in late spring.

☀️ 💧 Z9-10 ⓘ

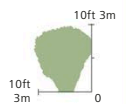

WHITE

***Philadelphus* 'Beauclerk'**

Deciduous, slightly arching shrub. Large, fragrant flowers, white with a small, central, pale purple blotch, are produced from early to mid-summer. Leaves are dark green.

☀️ 💧 Z5-8

***Deutzia scabra***

Deciduous, upright shrub with narrowly ovate, dark green leaves that, from early to mid-summer, set off dense, upright clusters of 5-petaled, white blooms.

☀️ 💧 Z6-8
