

YELLOW

***Thladiantha dubia***

Fast-growing, herbaceous or deciduous, tendril climber. Ovate to heart-shaped, mid-green leaves, 4in (10cm) long, are hairy beneath; bell-shaped, yellow flowers are carried in summer.

H 10ft (3m).

☀️ ⚡️ Z8-11

***Grevillea juniperina* f. *sulphurea***

Evergreen, rounded, bushy shrub with almost needlelike leaves, recurved and dark green above, silky-haired beneath. Has clusters of small, spidery, pale yellow flowers in spring-summer.

H 5-6ft (1.5-2m), S 6-10ft (2-3m).

☀️ ⚡️ Z9-11 ⓘ

***Hypericum* 'Rowallane'**

Semievergreen, arching shrub with ovate, rich green leaves. Bears large, bowl-shaped, deep golden-yellow flowers from midsummer to mid- or late fall. Is cut to ground level in severe winters. H to 6ft (1.8m), S to 3ft (1m).

☀️ ⚡️ Z7-9

***Dendromecon rigida***

Vigorous, evergreen, upright shrub, best grown against a wall. Large, fragrant, golden-yellow flowers appear amid gray-green foliage from spring to fall. H and S 10ft (3m).

☀️ ⚡️ Z9-11

***Fremontodendron* 'California Glory'**

Very vigorous, evergreen or semievergreen, upright shrub. Has rounded, lobed, dark green leaves and large, bright yellow flowers from late spring to mid-fall. H 20ft (6m), S 12ft (4m).

☀️ ⚡️ Z8-10 ⓘ

***Piptanthus nepalensis***

Deciduous or semievergreen, open shrub with leaves consisting of 3 large, dark blue-green leaflets. Racemes of pealike, bright yellow flowers appear in spring-summer. H 8ft (2.5m), S 6ft (2m).

☀️ ⚡️ Z11

***Jasminum humile* 'Revolutum'**

Evergreen, bushy shrub with glossy, bright green leaves divided into 3-7 ovate leaflets. Bears large, fragrant, tubular, upright, bright yellow flowers, with 5 spreading lobes, on long, slender, green shoots from early spring to late fall. H 8ft (2.5m), S 10ft (3m).

☀️ ⚡️ Z7-9

***Lonicera x americana*** (Honeysuckle)

Very free-flowering, deciduous, woody-stemmed, twining climber. Leaves are ovate, upper ones united and saucerlike. Has clusters of strongly fragrant, yellow flowers, flushed with red-purple, in summer. H to 23ft (7m).

☀️ ⚡️ Z6-9 ⓘ

***Campsis radicans* f. *flava***

Deciduous, woody-stemmed, root climber with leaves divided into 7-11 ovate, toothed leaflets, downy beneath. Small clusters of trumpet-shaped, yellow flowers, 2½-3in (6-8cm) long, are produced in late summer and early fall. H 40ft (12m).

☀️ ⚡️ Z5-9
