

Stipa gigantea (Golden oats)
Evergreen, tuft-forming, perennial grass with narrow leaves, 1½ft (45cm) or more long. In summer, produces elegant, open panicles of silvery spikelets, with long awns and dangling, golden anthers, which persist well into winter. **H** 8ft (2.5m), **S** 3ft (1m).

☀️ ⚡️ Z8–15

Phyllostachys nigra* f. *henonis
Evergreen, clump-forming bamboo with bristled auricles on culm sheaths and a profusion of leaves. **H** 30ft (10m), **S** 6–10ft (2–3m).

☀️ ⚡️ Z7–11

Phyllostachys viridiglaucescens
Evergreen, clump-forming bamboo with greenish-brown stems that arch at the base. Has white powder beneath nodes. **H** 20–25ft (6–8m), **S** indefinite.

☀️ ⚡️ Z7–11

Phyllostachys bambusoides
(Timber bamboo)
Evergreen, clump-forming bamboo with stout, erect, green stems. Bears leaf sheaths with prominent bristles, and large, broad, mid-green leaves. **H** 20–25ft (6–8m), **S** indefinite.

☀️ ⚡️ Z7–10

Pseudosasa japonica
(Arrow bamboo, Metake)
Evergreen, clump-forming bamboo that may run. Has long-persistent, roughly pubescent, brown sheaths and broad leaves, 14in (35cm) long. **H** 15ft (5m), **S** indefinite.

☀️ ⚡️ Z7–10

Shibataea kumasasa
Evergreen, clump-forming bamboo with stubby, side branches on greenish-brown stems. Leaves are 2–4in (5–10cm) long. **H** 3–5ft (1–1.5m), **S** 1ft (30cm).

☀️ ⚡️ Z6–15

Semiarundinaria fastuosa
(Narihira bamboo)
Evergreen, clump-forming bamboo with 6in (15cm) long leaves and short, tufted branches at each node. Culm sheaths open to reveal polished, purplish interiors. **H** 20ft (6m), **S** indefinite.

☀️ ⚡️ Z6–9

Ampelodesmos mauritanicus
Dense, evergreen, clump-forming, perennial grass with linear, gray-green leaves, to 3ft (1m) long, with dark green undersides. In summer, long-lasting one-sided panicles of purplish-green flowers are borne on upright, lofty stems. **H** 8ft (2.5m), **S** 3ft (1m).

☀️ ⚡️ Z8–10

Chimonobambusa tumidissinoda
Vigorous, evergreen, rhizomatous bamboo with curiously prominent, green stems, flared at each node. Lance-shaped, dark green leaves have a feathery look. May spread. **H** and **S** 16ft (5m) or more.

☀️ ⚡️ Z9–11
