

SMALL

SPRING

GREEN

***Tanacetum densum* subsp. *amani***

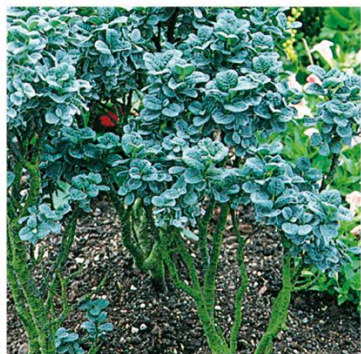

Clump-forming perennial retaining fernlike, hairy, gray leaves in winter in mild climates. Bears daisylike, yellow flower heads with woolly bracts in summer. Dislikes winter wet. **H** and **S** 8in (20cm).

☀️ ♂ Z6-8 ⓘ

***Ozothamnus coralloides***

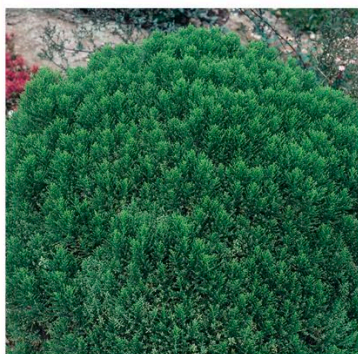

Evergreen, upright shrub with gray stems clothed in neat, dark green leaves, marked silver. Occasionally bears fluffy, yellow flower heads. Suits a cold frame or an alpine house. Hates winter wet. **H** 6-9in (15-23cm), **S** 6in (15cm).

☀️ ♂ Z8-9

***Salix* 'Boydii'**

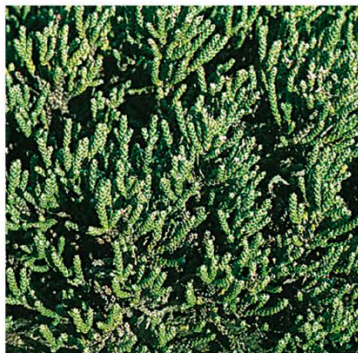

Very slow-growing, deciduous, upright shrub forming a gnarled, branched bush. Has ovate, rough-textured leaves; catkins are rarely produced. Will tolerate light shade. **H** to 6-9in (15-23cm), **S** to 12in (30cm).

☀️ ♂ Z4-7

***Hebe cupressoides* 'Boughton Dome'**

Slow-growing, evergreen, dome-shaped shrub with scalelike, stem-clasping, dark gray-green leaves. Bears terminal clusters of small, 4-lobed, blue-tinged, white flowers in summer. **H** 12in (30cm), **S** to 24in (60cm).

☀️ ♂ Z8-9

***Ozothamnus selago***

Evergreen, upright shrub with stiff stems covered in scalelike leaves. Intermittently bears fluffy, creamy-white flower heads. Makes a good foil for spring bulbs. **H** and **S** 6-9in (15-23cm).

☀️ ♂ Z9-10

***Ballota pseudodictamnus***

Evergreen, mound-forming subshrub with rounded, gray-green leaves and stems covered with woolly, white hairs. In summer, bears whorls of small, pink flowers with conspicuous, enlarged, pale green calyces. **H** 2ft (60cm), **S** 3ft (90cm).

☀️ ♂ Z7-9

WHITE

***Androsace vandellii***

Evergreen, dense, cushion-forming perennial with narrow, gray leaves and a profusion of stemless, white flowers in spring. Needs careful cultivation with a deep collar of grit under the cushion. **H** 1in (25cm), **S** to 4in (10cm).

☀️ ♂ Z5-7

***Arabis alpina* subsp. *caucasica* 'Variegata'**

Evergreen, mat-forming perennial with rosettes of ovate, cream-splashed, mid-green leaves. Bears bunches of single, sometimes pink-flushed, white flowers from early spring to summer. **H** and **S** 6in (15cm).

☀️ ♂ Z4-8

***Arenaria balearica***

Prostrate perennial that is evergreen in all but the most severe winters. Will form a green film over a wet, porous rock face. Minute, white flowers stud mats of foliage in late spring and early summer. **H** less than 1/2in (1cm), **S** indefinite.

☀️ ♂ Z4-7
