

Paronychia kapela* subsp. *serpyllifolia
Evergreen, very compact, mat-forming perennial with minute, silver leaves. Inconspicuous flowers, borne in summer, are surrounded by papery, silver bracts. Good for covering tufa. **H** to ½in (1cm), **S** 8in (20cm).

☀️ ⚡️ Z6–10

***Sedum spathulifolium* 'Cape Blanco'**
Evergreen perennial with rosettes of fleshy leaves, frequently suffused purple. Tiny, yellow flowers are borne above foliage in summer. Tolerates shade. **H** 2in (5cm), **S** indefinite.

☀️ ⚡️ Z5–9 ⓘ

Asarum europaeum (European wild ginger)
Vigorous, evergreen, prostrate, rhizomatous perennial with large, kidney-shaped, leathery, glossy leaves that hide tiny, brown flowers produced in spring. **H** 6in (15cm), **S** indefinite.

☀️ 💧 Z4–8

Pachysandra terminalis
Evergreen, creeping perennial that has smooth leaves clustered at the ends of short stems. Bears spikes of tiny, white flowers, sometimes flushed purple, in early summer. Makes excellent groundcover in a moist or dry site. **H** 4in (10cm), **S** 8in (20cm).

☀️ ⚡️ Z4–8

***Arabis procurrens* 'Variegata'**
Evergreen, mat-forming perennial with small, ovate, green leaves, splashed with cream. Bears small, white flowers in spring and early summer. May revert to type, with plain green leaves. **H** ¾in (2cm), **S** 12in (30cm).

☀️ ⚡️ Z3–7

***Trifolium repens* 'Purpurascens'**
Vigorous, semievergreen, ground-cover perennial, grown for its divided, bronze-green foliage, variably edged bright green. Produces heads of small, pealike, white blooms in summer. Suits a wild bank. **H** in flower 3–5in (8–12cm), **S** 8–12in (20–30cm) or more.

☀️ ⚡️ Z4–8

***Arctostaphylos uva-ursi* 'Point Reyes'**
Evergreen, prostrate shrub with long shoots and glossy leaves. In late spring and early summer, bears terminal clusters of urn-shaped, pale pink to white flowers, followed by red berries. **H** 4in (10cm), **S** 20in (50cm).

☀️ ⚡️ pH Z2–6

Sempervivum ciliosum
Evergreen, mat-forming perennial with rosettes of hairy, gray-green leaves and, in summer, heads of small, star-shaped, yellow flowers. Dislikes winter wet; best grown in an alpine house. **H** 3–4in (8–10cm), **S** 4in (10cm).

☀️ ⚡️ Z7–11
