

Trees and shrubs for exposed sites

In cold-climate gardens, particularly those exposed to strong winter winds, only the hardiest plants thrive without the protection of a windbreak. Where providing one is not practical, it is essential to establish a basic framework of trees, shrubs, and conifers that are fully hardy. Carefully positioned within the garden, in groups, they provide sheltered situations where less hardy plants can be grown, while still retaining a degree of openness if desired.

TREES

Acer platanoides and cvs, pp.60, 67
Acer pseudoplatanus
Betula utilis subsp. *jacquemontii*
Crataegus laevigata 'Paul's Scarlet', p.84
Crataegus x lavalleyi 'Carrierei'
Fagus sylvatica and cvs, pp.61, 64, 79
Fraxinus excelsior 'Jaspidea', p.60
Fraxinus ornus, p.71
Laburnum x watereri 'Vossii', p.84
Populus tremula
 SORBUS (many), p.91
Tilia cordata

Conifers

Chamaecyparis obtusa and cvs, pp.104, 105
Chamaecyparis pisifera 'Filifera Aurea', p.105
Juniperus communis 'Hibernica'
Juniperus x pfitzeriana and cvs, p.105
Picea breweriana, p.99
Pinus nigra subsp. *nigra*, p.98
Pinus sylvestris, p.78
Taxus baccata and cvs, pp.101, 102, 105
Tsuga canadensis, p.102
Xanthocyparis nootkatensis

SHRUBS

Amorpha canescens
Arctostaphylos uva-ursi, p.376
Berberis darwinii, p.111
Berberis 'Rubrostilla', p.162
Berberis x stenophylla, p.127
Buddleja davidii 'Royal Red'
Calluna vulgaris and cvs, p.166
Chaenomeles speciosa, p.142
Cornus alba 'Sibirica', p.143
Corylus maxima 'Purpurea', p.115

ABOVE Vibrant fall color

Cotinus species and hybrids make a dramatic statement in fall. They thrive in full sun or partial shade, and tolerate exposed sites.

Cotinus coggygria GOLDEN SPIRIT ('Ancot'), p.116
Cotinus 'Flame', p.117
Cotoneaster 'Gnom'
Cotoneaster lacteus, p.117
Cotoneaster salicifolius, p.142
Cotoneaster simonsii, p.143
Elaeagnus umbellata, p.113
Euonymus europaeus 'Red Cascade', p.140
Euonymus hamiltonianus, p.142
Euonymus hamiltonianus subsp. *sieboldianus*, p.142
Euonymus oxyphyllus, p.117
 LILACS, p.115
Lonicera ligustrina var. *pileata*, p.167
Mahonia aquifolium, p.148
Philadelphus 'Beauclerk', p.127
Philadelphus 'Belle Etoile', p.128
Prunus laurocerasus 'Otto Luyken', p.145
Rhododendron groenlandicum, p.145
Ribes sanguineum 'Koja', p.146
Rubus thibetanus, p.143
Salix purpurea
Sambucus nigra f. *porphyrophylla* 'Guincho Purple'
Spiraea japonica 'Goldflame', p.156
Spiraea x vanhouttei, p.145
Symphoricarpos x chenaultii 'Hancock'
Ulex europaeus 'Flore Pleno'
Viburnum x burkwoodii, p.122
Viburnum opulus 'Xanthocarpum'
Viburnum tinus 'Eve Price', p.143

Climbers and shrubs for shady walls

Against cold, north- or east-facing walls, it is essential to choose climbers that grow naturally in shade or semishade. These provide reliable and effective foliage cover, and some have attractive flowers. A few climbing roses flower reasonably well in partially shaded situations and, together with climbers and shrubs, add color to the backs of borders. Shade-tolerant plants prefer moist, woodland-type soils; when planting, dig in organic matter, such as leaf mold.

SHRUBS

Azara microphylla, p.118
 CAMELLIAS, pp.120–121
Chaenomeles speciosa 'Moerloosei', p.122
Chaenomeles x superba 'Rowallane', p.147
Choisya ternata, p.122
Cotoneaster lacteus, p.117
Cotoneaster salicifolius, p.142
Daphne bholua 'Jacqueline Postill', p.143
Drimys winteri, p.73
Eucryphia x nymansensis 'Nymansay', p.73
Fatsia japonica
Jasminum nudiflorum, p.144
Mahonia japonica, p.144
Mahonia x media 'Charity', p.118
Muehlenbeckia complexa
Osmanthus decorus
Pyracantha spp. and cvs, pp.118, 141
Ribes laurifolium, p.165
Rosa 'Albéric Barbier', p.184
Rosa 'Ballerina', p.178
Rosa 'Madame Alfred Carrière', p.184
Rosa 'Madame Grégoire Staechelin', p.185
Rosa 'Maigold', p.187
Rosa MARY ROSE ('Ausmary')
Rosa OLIVIA ROSE AUSTIN ('Ausmixture'), p.174

CLIMBERS AND WALL SHRUBS

Akebia quinata, p.193
Berberidopsis corallina, p.202
Celastrus scandens
Clematis 'Frances Rivis', p.200
Cotoneaster horizontalis, p.209
Crinodendron hookerianum, p.202
Ercilla volubilis, p.192
Euonymus fortunei 'Emerald Gaiety',
Euonymus fortunei 'Silver Queen', p.144
 x *Fatsia* *lizei*, p.211
Forsythia suspensa, p.195
Garrya elliptica 'James Roof', p.211
Hedera colchica 'Dentata Variegata'
Hedera colchica 'Sulphur Heart', p.211
Hedera helix cvs, p.211
 HONEYSUCKLE, p.207
Hydrangea anomala subsp. *petiolaris*, p.195
Itea ilicifolia, p.211
Lapageria rosea, p.202
Parthenocissus spp. and cvs, pp.209
Pileostegia viburnoides, p.196
Schisandra rubriflora, p.202
Schizophragma hydrangeoides, p.197
Schizophragma integrifolium, p.197

BELOW Green-themed shade bed

Hostas and acers thrive in the shady conditions at the foot of sunless walls, providing attractive foliage patterns.
