

Plants for dry shade

Dry, shady conditions persist under evergreen trees throughout the year, and although very little moisture penetrates the soil beneath the leaf canopy of deciduous trees, except during prolonged rainfall, a few early-flowering bulbs, such as bluebells (*Hyacinthoides non-scripta*), and woodland plants grow naturally in these sites, dying down as the trees resume growth in spring. In gardens, dry shade occurs under larger, low-branched trees or where eaves extend over borders. Plant in the fall, so that roots are well established by the following spring, feed regularly, and water during dry periods until the plants are established.

TREES

HOLLIES, p.94

Conifers

Taxus baccata 'Adpressa'
Taxus cuspidata, p.104
Tsuga canadensis, p.102

SHRUBS

Berberis thunbergii 'Rose Glow', p.137
Berberis valdiviana, p.111
Buxus sempervirens
Choisya ternata, p.122
Cotoneaster salicifolius, p.142
Daphne laureola and forms, p.147
Elaeagnus x submacrophylla
Euonymus fortunei 'Emerald Gaiety'
Euonymus japonicus cvs, p.144
Fatsia japonica
Gaultheria shallon, p.154
Hypericum calycinum, p.161
Hypericum x moserianum
Lonicera ligustrina var. *pileata*, p.167
Mahonia aquifolium, p.148
Mahonia x media and cvs, p.118
Osmanthus decorus
Osmanthus delavayi, p.110
Pachysandra terminalis, p.375
Prunus laurocerasus 'Otto Luyken', p.145
Prunus laurocerasus 'Zabeliana', p.145
Prunus lusitanica
Rubus tricolor
Ruscus aculeatus, p.167
Ruscus hypoglossum, p.167
Sambucus nigra f. *porphyrophylla*
'Guincho Purple'
Sarcococca hookeriana var. *humilis*, p.164
Symphoricarpos albus var. *laevigatus*, p.142
Vaccinium angustifolium var. *laevifolium*, p.163
Viburnum rhytidophyllum, p.112
Viburnum tinus
Viburnum tinus 'Eve Price', p.143
Vinca major
Vinca minor, p.165

CLIMBERS AND WALL SHRUBS

Berberidopsis corallina, p.202
Celastrus orbiculatus
Cotoneaster horizontalis, p.209
Hedera canariensis
Hedera helix and cvs, p.211
Lapageria rosea, p.202
Lonicera japonica 'Halliana'
Lonicera periclymenum and cvs, p.207

PERENNIALS

Acanthus mollis 'Hollard's Gold', p.219
Acanthus spinosus, p.239
Ajuga reptans cvs

RIGHT Oceans of blue

English bluebells (*Hyacinthoides non-scripta*) are perfect plants for dry shade, producing a carpet of blue flowers.

Alchemilla mollis, p.275
Anemone tomentosa
Campanula persicifolia
Chelidonium majus 'Flore Pleno', p.227
Corydalis lutea, p.344
Digitalis purpurea
Doronicum x excelsum 'Harpur Crewe'
Epimedium spp. and cvs, pp.254, 260, 262, 263
Euphorbia amygdaloides var. *robbiae*, p.262

Eurybia divaricata
Geranium macrorrhizum, p.269
Iris foetidissima, p.225
Lamium maculatum
Lunaria rediviva
LUNGWORTS, p.261
Pachysandra terminalis, p.375
Polygonatum x hybridum, p.223
Scopolia carniolica, p.260
Symphytum 'Goldsmith'
Symphytum ibericum
Tellima grandiflora
Tolmiea menziesii
Viola riviniana Purpurea Group, p.355

Grasses and bamboos

Carex flagellifera, p.289
Luzula sylvatica 'Hohe Tatra', p.288

Ferns

Asplenium ceterach, p.293
Asplenium scolopendrium, p.292
Cyrtomium falcatum, p.291
Dryopteris filix-mas, p.293
Polypodium vulgare, p.291
Polystichum aculeatum

BULBS, CORMS, AND TUBERS

Camassia quamash, p.411
Colchicum autumnale, p.426
Cyclamen coum subsp. *coum* f. *coum*
Pewter Group, p.429
Cyclamen coum subsp. *coum* f. *coum*
Pewter Group 'Maurice Dryden', p.428
DAFFODILS, pp.404–405
Galanthus 'Hill Poë', p.427
Galanthus woronowii, p.428
Haemanthus albiflos
Hyacinthoides x massartiana, p.403
Hyacinthoides non-scripta, p.403
Incarvillea delavayi, p.265
Scilla siberica 'Alba', p.416

TENDER AND EXOTIC PLANTS

Climbers

Epipremnum aureum 'Marble Queen', p.460
Cissus striata

Perennials

Achimenes spp. and cvs, p.469
Clivia miniata, p.476
Nephrolepis exaltata, p.478
Tradescantia zebrina 'Quadricolor'

Cotoneaster horizontalis

Sarcococca hookeriana var. *digyna*

Geranium phaeum
