

***Acer rubrum*** (Red maple)

Deciduous, round-headed tree. Dark green leaves turn bright red in fall, producing best color on acidic or neutral soil. In spring, bare branches are covered with tiny, red flowers.

Z3-9

***Acer rubrum*** 'Scanlon'

Deciduous, upright tree. Has lobed, dark green foliage that in fall becomes bright red, particularly on acidic or neutral soil. Clusters of small, red flowers decorate bare branches in spring.

Z3-9

***Nyssa sylvatica*** (Black gum, tupelo)

Deciduous, broadly conical tree with ovate, glossy, dark to mid-green leaves that turn brilliant yellow, orange, and red in fall.

Z5-9

***Acer rubrum*** 'Schlesingeri'

Deciduous, round-headed tree. In early fall, dark green leaves turn deep red. Tiny, red flowers appear on bare wood in spring.

Z3-9

***Fraxinus angustifolia*** subsp. *oxycarpa*
'Raywood' (Claret ash)

Vigorous, deciduous, spreading tree. Leaves have 5-7 narrowly ovate, glossy, dark green leaflets that mature to bright reddish-purple in fall.

Z6-9

***Quercus alba*** (White oak)

Deciduous, spreading tree. Deeply lobed, glossy, dark green leaves turn reddish-purple in fall.

Z5-9

***Prunus serotina*** (Black cherry)

Deciduous, spreading tree. Spikes of fragrant, white flowers appear in early summer, followed by red fruits that turn black in fall. Glossy, dark green leaves become yellow in fall.

Z4-8

***Cercidiphyllum japonicum***
(Katsura tree)

Fast-growing, deciduous, spreading tree. Leaves, bronze when young, turn rich green, then yellow to purple in fall, especially on acidic soil. Fallen leaves smell of burnt toffee.

Z4-8

***Quercus palustris*** (Pin oak)

Fast-growing, deciduous, spreading tree with slender branches, pendulous at the tips. Deeply lobed, glossy, bright green leaves turn scarlet or red-brown in fall.

Z5-8
