

Eucryphia cordifolia (Ulmo)

Evergreen, columnar tree bearing oblong, wavy-edged, dull green leaves, with gray down beneath. Large, saucer-shaped, white flowers are produced in late summer and fall.

☀️💧 Z8-11

Pterostyrax hispida (Epaulette tree)

Deciduous, spreading tree or shrub with aromatic, gray bark and oblong to ovate, mid-green leaves, 8in (20cm) long. Large, pendent panicles of small, bell-shaped, white flowers are borne from early to midsummer.

☀️💧🌿 Z5-8

***Acer pseudoplatanus* f. *variegatum* 'Simon Louis Frères'**

Deciduous, spreading tree. Young leaves are marked with creamy-white and pink; older foliage is pale green with white markings.

☀️💧 Z4-7

***Aesculus indica* 'Sydney Pearce'**

Deciduous, spreading tree with glossy, dark green leaves, bronze when young and orange or yellow in fall. Pinkish-white flowers, marked red and yellow, appear from early to midsummer.

☀️💧 Z7-8 ⚠️

Catalpa bignonioides (Indian bean tree)

Deciduous, spreading tree. Large, light green leaves are purplish when young. White flowers marked with yellow and purple appear in summer, followed by long, cylindrical, pendent, seed pods.

☀️💧 Z5-9

Drimys winteri (Winter's bark)

Evergreen, conical, sometimes shrubby tree with long, glossy, pale or dark green leaves, usually bluish-white beneath. Bears clusters of fragrant, star-shaped, white flowers in early summer.

☀️💧 Z8-11

Toona sinensis

Deciduous, broadly columnar tree with peeling, brown bark. Has large, pinnate, dark green leaves, which turn yellow in fall. Bears fragrant, white flowers in midsummer. Shoots are onion-scented.

☀️💧 Z5-8

Catalpa bungei

Deciduous, broadly columnar tree grown for its bell-shaped, foxglovelike, delicate pink flowers, from early to midsummer, followed by long, pendulous seed pods. Has large, heart-shaped, bright green leaves ending in a long point.

☀️💧 Z6-8

***Quercus cerris* 'Argenteovariegata'**

Deciduous, spreading tree. Deeply toothed or lobed, glossy, dark green leaves have creamy-white margins.

☀️💧 Z7-9

***Eucryphia* x *nymansensis* 'Nymansay'**

Evergreen, columnar tree. Some of the leathery, glossy, dark green leaves are simple, others consist of 3 (rarely 5) leaflets. Clusters of large, white flowers open in late summer or early fall.

☀️💧 Z8-9

Sorbus pseudohupehensis

Deciduous, spreading tree with leaves of 4-8 pairs of blue-green leaflets turning orange-red in late fall. White flowers in spring are followed by long-lasting, pink fruits.

☀️💧 Z4-7 ⚠️
