

GREEN

Chamaecyparis lawsoniana
'Intertexta'

Elegant, weeping conifer with aromatic, gray-green foliage carried in lax, pendulous sprays. Old trees become columnar with some splayed branches.

Z5-9

Wollemia nobilis (Wollemi pine)

Erect, bushy conifer with narrowly oblong, pointed, needlelike, dark green leaves, and "bubbly," brown bark when mature. In winter, shoot tips are covered in a protective white resin. Catkinlike female cones are borne on shoot tips.

Z7-11

Pinus strobus

(Eastern white pine)

Conifer with an open, sparse, whorled crown. Has gray-green foliage and cylindrical cones. Smooth, gray bark becomes fissured with age. Does not tolerate pollution.

Z4-9

Metasequoia glyptostroboides

(Dawn redwood)

Fast-growing, deciduous, upright conifer with fibrous, reddish bark. Soft, blue-green leaves turn yellow, pink and red in fall. Cones are globose to ovoid, 3/4 in (2cm) long.

Z5-10

Pseudotsuga menziesii* var. *glauca
(Blue Douglas fir)

Fast-growing, conical conifer with thick, grooved, corky, gray-brown bark, aromatic, glaucous blue-green leaves, and sharply pointed buds. Cones have projecting, 3-pronged bracts.

Z4-7

Pinus coulteri

(Big-cone pine, Coulter pine)

Fast-growing conifer with large, broadly ovoid, prickly cones, each 2-4 1/2 lb (1-2kg). Gray-green leaves in crowded clusters are sparsely set on branches. Grows in all soils, even heavy clay.

Z8-9

Cedrus deodara (Deodar cedar)

Fast-growing conifer, densely conical with weeping tips when young, broader when mature. Has spirally arranged, needlelike, gray-green leaves and barrel-shaped, glaucous cones, 3-5 in (8-12cm) long, ripening to brown.

Z6-9

Abies veitchii (Veitch fir)

Fast-growing, conical, upright conifer with soft, densely arranged, dark green leaves, which curve upward and are silvery beneath. Produces cylindrical, bright gray-blue cones.

Z3-6
