

The **giant squid** has the **biggest eyes**. They are up to 11 in (27 cm) wide, which are even **bigger** than **soccer balls**.

**50
MPH**

THE **PEACOCK MANTIS SHRIMP** HAS THE **FASTEST PUNCH**—IT CAN HIT ITS PREY AT A **SPEED** OF **50 MPH** (80 KPH).

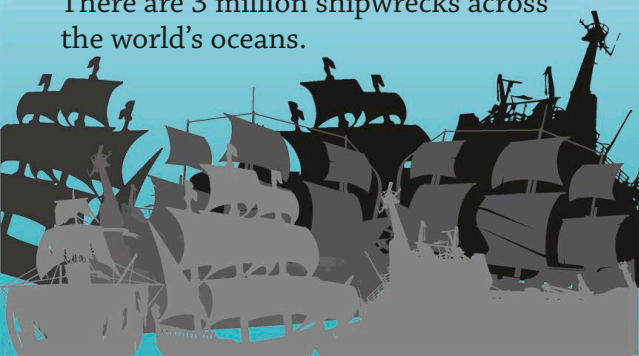

A **great white shark** has 300 teeth. Since they are being **replaced all the time**, it may grow about **30,000 teeth** during its **lifetime**.

3 million

There are 3 million shipwrecks across the world's oceans.

450 MILLION YEARS

Starfish have lived in the oceans for almost 450 million years—long before the first dinosaurs lived on Earth.

450 million years ago

181–169 million years ago
