

Poo

Poo comes in many shapes and sizes!

Which animal has cube-shaped poo?

rabbit droppings

fox poo

bird dropping

lizard poo

wombat poo

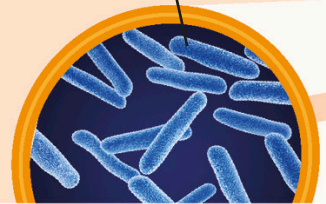

Animal clues

Learn to recognise the poo of different animals. Look out for rotting plants, too – these are being eaten by animals and microbes. You might also find evidence of things that lived long ago.

Rotting plants

What creatures are eating the log?

microbes

More animal clues

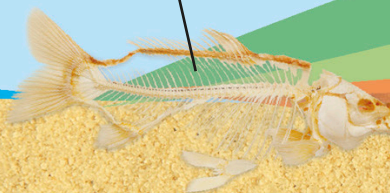

shark teeth

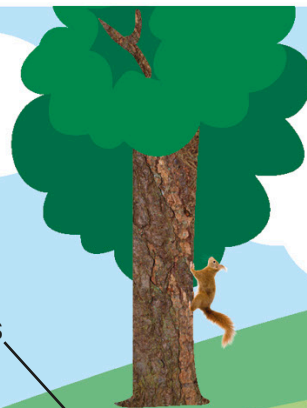

shells

skeleton

bones

animal tracks
