

UFOs

Flying saucer-shaped objects, crop circles, lights in the night sky... people have long claimed to see and find evidence of UFOs (Unidentified Flying Objects). Look at some of the claims yourself. What do you think?

Crop circles

These are intricate designs made from flattened areas of corn. Some believe they are the landing sites of flying saucers, but many have been proved to have been made by humans.

The idea that intelligent life exists outside our solar system has always seemed to intrigue people. This cave painting is thousands of years old. It appears to depict an extraterrestrial encounter.

Was it a strange craft?

The Apollo picture shown on the previous page was thoroughly investigated, and found to be nothing more mysterious than the floodlight boom, used when astronauts left the spacecraft.

Is it a UFO coming in to land...
