This Canadian coin features a beaver.

Beaver land

Beavers live in and around lakes throughout Canada. The beaver is the country's national animal.

Yukon is Canada's smallest and least-populated territory with unspoiled mountains and glaciers.

Totem poles in Stanley Park, Vancouver

Totem poles

Canada is known for its totem poles, hand-carved and decorated with symbols of its indigenous people. They stand as memorials to honor early communities. These totem poles belong to the Kwakwaka'wakw First Nations tribe.

Valley of the Ten Peaks

Ten majestic mountain peaks tower over Moraine Lake in this scenic spot in Canada's Alberta Province.

North American elk

The elk is one of the largest of all deer species. It lives in large groups in forests. About 1 million elk live in North America.

As the **second-largest country** on Earth, **Canada** stretches from the icy **Arctic Circle** through the snowcapped **Rocky Mountains** to the grassy plains of the **prairies**. It has the world's **longest coastline** and more lakes than any other nation. This vast expanse is divided into **10 provinces** and **three territories**.
