The Antonov Serial Production Plant in Kyiv has been manufacturing planes since 1920.

Aircraft industry

For decades, Ukraine has been an industrial powerhouse producing many types of aircrafts, including large cargo planes, such as this An-225 Mriya.

The male roe deer grows a new pair of antlers every year.

Roe deer

This solitary mammal with a distinctive white rump and short tail thrives in Ukraine's forests.

Farming crops

Ukraine's vast fertile plains and mild climate make it one of the top producers of wheat, corn, barley, and soy beans. In 2019, nearly 82.7 millions tons (75 million metric tons) of grain were harvested.

- 233,032 sq miles (603,550 sq km)
- 43.9 million
- Kyiv
- Ukrainian, Russian, Tatar

Formerly part of the Soviet Union, Ukraine became an **independent republic** in **1991**. The nation is sometimes known as the "**Breadbasket of Europe**" for its **fertile fields**.

The bandura is a stringed instrument that resembles a lute.

Young musicians

Traditional folk music is popular throughout Ukraine. Their tunes range from love melodies to political songs.
