

Ethiopia

Bubbling hot spot

A sizzling temperature of 49°C (120°F) is not unheard of in the low-lying Danakil Depression. It has volcanic rocks, a lava lake, and hot green ponds, such as Dallol, that are highly acidic.

Pastoral people

The Mursi people live as nomads in the Omo River valley. They raise cattle for meat and milk.

Gelada

The Ethiopian Highlands are the home of grass-eating gelada baboons. Males display a red, heart-shaped patch on their chest to attract a mate.

Addis Ababa, meaning "new flower," is located in the heart of Ethiopia.

African Union headquarters

The African Union, an organization that promotes cooperation on the continent, has its headquarters in Addis Ababa.

Mesob baskets

Women weave these flat-bottomed baskets in brightly colored patterns. The lidded baskets are used to store food and as tables to eat off.

Ethiopia is a country in the **Horn of Africa**, dramatically split by the **Great Rift Valley** in the Afar region. One of the **oldest cultures** in the world, it is the only part of Africa that was **never colonized**. Ethiopia is where the **coffee plant** came from, and coffee is grown in its mountainous **highlands**. It is the country's main export.
