

## Can you find...

**The highest point in Africa?**  
Mount Kilimanjaro in Tanzania is 5,895 m (19,341 ft) tall.

**One of the world's highest sand dunes?** Erg Tifernine in the Sahara is 400 m (1,300 ft) tall.

**The hottest place on Earth?** Al 'Aziziyah, in Libya, has had temperatures of 58°C (136.4°F).

### The Suez Canal

This canal is a man-made waterway that runs from the Red Sea to the Mediterranean. It provides a short cut for ships travelling from Europe to Asia.

### Savanna wildlife

Much of Africa is covered by a type of grassland called savanna. Huge herds of grazing animals live on the savanna, as well as lions, hyenas, and cheetahs.
