

World of people

More than six billion people live in the world. These people have different customs, languages, beliefs, and lifestyles.

Language and people

One in every five people in the world lives in China. The most widely spoken language is Mandarin Chinese, which has almost one billion speakers.

Culture

People enjoy many different kinds of art and culture.

Writing is used to record information, news, views, stories, and history.

Theatre entertains audiences with acting, dance, and costume.

Painting is a way of expressing feelings and ideas through pictures.

Fashion is different all over the world, and is changing all the time.

Music styles can be classical or popular, traditional or modern.

This girl is dressed up for May Day – a festival that is celebrated in some parts of Europe.

May Day marks the first day of spring, after the long, cold months of winter.
