

Working people

What do you want to be when you grow up? All over the world, people do different kinds of work to earn the money to buy their food, clothes, and homes.

Astronauts

Astronauts are people who work in space. Some fly spacecraft. Others do science experiments in space. The astronauts in this picture are working inside a Space Shuttle.

Market sellers

There are markets selling food and other goods in almost every town and city. This man is selling fruit and vegetables from his market stall in Cairo, Egypt.
