

Stay healthy

You are completely **unique** and **special!** It's really important that you learn how to **take care** of yourself.

Exercise

Human bodies need to move. Exercise makes your muscles, heart, and even your brain healthier.

Did you know?

Around a third of what you eat should be fruit and vegetables.

Food is fuel for the body. Your body needs the right amount of different foods to stay fit and healthy.

Yoga

Jump rope

Bike

Walk

Dance

Run

Have fun as you exercise!
